

## Get paid up to 72% faster using our automated emails

### Benefits

- Get paid faster without the hassle. Satago's credit control tool integrates with any mail server, so you can send automated payment reminders from your own email address.
- Say goodbye to late payments and bad debt for good. Use the risk insight tool to view the credit score and payment history of any business and fully understand your customers.
- Fund future projects and cover cash gaps. Finance one or multiple invoices with no longer-term commitment or hidden fees, with \_\_\_\_\_' single invoice finance.
- Easy to set up and to use. Connects with your accounting software in a few clicks and you're ready to go.

### Do you struggle with late payment and bad debt? If so, you're not alone.

According to the Federation of Small Businesses, late payments cause 50,000 businesses to collapse each year. The situation has worsened in recent months, with 62% of small businesses suffering from late or frozen payments as a result of the pandemic.

At this challenging time, it's essential that businesses equip themselves with the tools they need to avoid the late payments and improve cashflow.

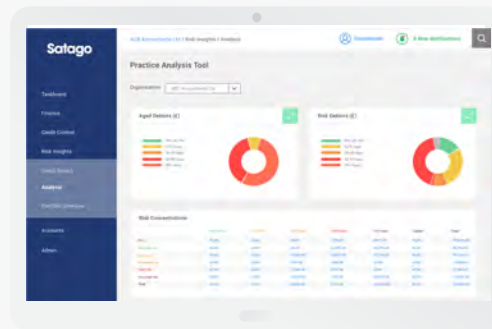

### Solution

Satago's provides everything you need to get paid on time, avoid credit risks and cover cash gaps when you need to.

The platform integrates with your accounting software in a few clicks to provide credit control, risk insights and single invoice finance, all in one place.

With Satago's automated payment reminders, you'll never chase an invoice again. Whilst the platform's risk insight tools will help you understand your customers and avoid credit risks before they become a problem.

## Get paid up to 72% faster using our automated emails

### Satago chases invoices so you don't have to

The average business spends two days a month manually chasing invoices. Satago's automated credit control tool chases your invoices for you, so you can reinvest that time into growing your business.

Satago integrates with any mail server, allowing you to send automated payment reminders, monthly statements and thank you emails from your won mail address.

### Spot risks and avoid late payments

Protect yourself from the threat of late payments and bad debt by gaining insight on your customers' credit score and payment history.
